WAR! WAR!! WAR!!

Between the Physicians and the Matchless Sanative

1 WHY are some of the American Physicians making such strong efforts to PUT DOWN the Matchless Sanative? Let the public answer.

2. Why did the German Physicians at first OPPOSE Dr Goelicke, and afterwards acknowledge him to be a GREAT BENEFACTOR to mankind? Let the public answer

3 What medicine HAS cured, IS curing and WILL cure obstinate diseases which physicians CANNOT cure? Let Facts answer

4. What kind of apple trees are most STONED and CLUBBED? Let Farmers answer

5 Why are physicians constantly PELTING the Sanative and saying nothing against OTHER medicines? Let their Day Book answer

6 How did Dr Adams attempt to convince Mr Webster who had bought a vial of the Sanative for the use of his family that it was a DANGEROUS medicine? Let one of the daily papers answer "The recent experiment which Dr Adams tried with the Matchless Sanative, in giving a large dose of it to a dog, *without killing him* clearly proves that the Sanative was made to CURE and not to KILL"

7 Why do some physicians SECRETLY buy the Sanative and MIX it with their own medicines, which they use in their daily practice Answer that they may have the CREDIT of the CURES

8 Why is a sick young man belonging to one of the first families in Boston now using the Sanative, without letting the attending physician KNOW it? The recovery of his HEALTH will shortly answer

9 Why are physicians trying to persuade agents to give up SELLING the Sanative? Answer they know if it should be for sale in every town in America they would shortly be obliged to resort to SOME OTHER BUSINESS or else STARVE.

10 Why will the Matchless Sanative soon be the ONLY medicine used throughout the world? Let PHYSICIANS answer.

The above precious medicine (the original discovery of Dr LOUIS O GOELICKE, of Germany) is for sale wholesale and retail, in Boston, by D S ROWLAND, General American Agent for the discoverer. [illegible]

BANGOR WHIG.

TUESDAY, JULY 17, 1838.

WHIG NOMINATIONS.

FOR GOVERNOR,

EDWARD KENT.

Representative for Congress:
York. NATHAN D. APPLETON.

For State Senators.
JAMES McARTHUR,
THOMAS CARLE,
LOVE KEAY.

County Treasurer,
ANDREW HOBSON.

The way the People's money is squandered and the Government made bankrupt. Many have heard of Bob Lytle of Ohio. He was a Representative in Congress from Cincinnati district, and while in Congress was among the foremost in traducing and denouncing the U. S. Bank, as a corrupt institution, and voted, too, against the restoration of the deposites in defiance of the expressed will of his constituents. Having been defeated in his attempts to be re-elected, Gen. Jackson, for his fidelity to him, and treachery to the people, *rewarded him* with the office of Surveyor General of Ohio, Indiana, Michigan and Wisconsin Territory. And now, this lover of the interests of the "dear people," this man who manifested such anxiety for the safety of the people's money, in the short space of *two* years has become a DEFAULTER for **$33,042,04!** This fact is ascertained by a report lately made to the House of Representatives, by Mr. Whittlesey, the Chairman of the Committee on Claims. To cap the climax, and protect the public interests and *reputation* of Mr. Lytle, he has resigned, and the President has appointed a BROTHER-IN-LAW of L's in his place!

"What a pretty comment," says the N. Y. Courier, "is not all this on the manner in which the Government of this Union is administered? A lucrative office is bestowed on a man having no earthly claims on the public, no claim but that of blind servility to Executive power whilst acting as the people's representative. He proves recreant to his new trust which his appointment involved, as indeed might be expected, and though the Executive does not bend sufficiently to the force of exposure, as to accept his resignation, he selects as his successor a near relative, and no doubt, all is a matter of arrangement between the appointing power, the late incumbent and his substitute.

"We verily believe that such is the extent of the corruption now pervading the political atmosphere at Washington, that nothing but a radical change in every department, from the highest officer to the lowest, will prevent this country from presenting to the world a spectacle of more moral turpitude in its government than that of any nation of modern times."

Gen. Wool and Gen. Irish have returned from the frontier, where they have been to explore and reconnoitre, for the purpose of recommending to the proper authority the best position for a military post for the defence of our country.—We have information from a source which warrants us in saying that a Report and recommendation will, without delay, be forwarded to Washington in favor of a point near Moose river, where the Canada road crosses said river for a depot and battery immediately at the bridge, and also a depot at the foot of Moose Head Lake. The Fort can be supplied either from Bangor or Augusta, as a good road, from the foot of the lake to either place, may be constructed with very little expense, and through a level and fertile country. The land from the mouth of Moose river to the point designated, is uncommonly level and fertile.

Tory Correspondents. The Eastern Argus begins to fill its columns with "*extracts*" from letters purporting to come from various parts of the State. Our attention has been called, particularly, to one said to have been received from Washington county and written the day *before* their Convention was held. It says "a good feeling exists throughout the county." But what evidence is there of this "good feeling?" The Convention balloted FOUR times before they came to a choice. "An excellent state of feeling" in *the party*, indeed. The fact is, they are split up, and gasping for breath—they are on their last legs, if they are not already flat on their backs. Why do they send about their agents to reconcile the party, if such a beautiful state of feeling already exists? Put these two things together.

"*Oh Dear! what can the matter be?*" The Loco Focos, at the recent celebration at Dover, were so short off for hearers, that they were obliged to post off their music to the above tune to a bower in Foxcroft, where were congregated a large number of *females* and Sabbath School children, many of [illegible] inveigled away. Their banner was stolen by the Locos, and the children and ladies, seeing it floating in the breeze, naturally followed it in procession till they found themselves in Dover, but a short distance from where they were assembled, in a Loco Foco [illegible]. As soon as the trick was discovered, most of them retired in disgust. This was a pitiful trick, and it gave rise to the following [illegible] from our thorough going Whig friend, Henry R. Adams, "Capt. Mordecai Mitchell of the Dover Tory Band" "Oh dear! what can the matter be?"

In *Avoyelles*, we understand there is a majority of 100 for Roman; and in *Catahoula* also there is said to be a majority for him.

We have no doubt, when the result is known that A. B. Roman will receive 200 votes majority in the city of New Orleans.

The election of Hon. E. D. White to Congress, may now be considered certain, and scarcely any doubt remains of the success of A. B. Roman.

A passenger who arrived last evening on board the steamer Teche from Natchitoches, assures us that Mr. Roman will obtain a majority in the three parishes, that is Natchitoches, Rapides and Alexandria. This we were well aware, but are pleased to hear it confirmed.

Latest Account. The Picayune of the 6th has the following printed endorsement:

Friday morning, 9 o'clock.

☞ The last Bangor Democrat, alias the Old Bangor Post, says that our present worthy Chief Magistrate is a "*resolve* Governor." There is no mistake about this: The people last year were *resolved* to rid themselves of the scourge of Locofocoism, and well nigh effected it. This year they are *resolved* to wipe it clean out, and they WILL do it. The Locos may resolve that they will elect John Fairfield, but they might as well resolve that the moon is made of green cheese, as for any such effect a resolve might produce.

Taking the Stump. The New Hampshire Candidates for office at their next annual election intend to adopt the Southern mode of electioneering, and address the voters in person.

THE NORTH EASTERN BOUNDARY QUESTION.

Nothing can afford a more striking proof of the total negligence and incapacity, bordering almost upon treason, with which the negotiations with Great Britain on the subject of the North Eastern Boundary have been conducted by the late and present administration, than the fact, that notwithstanding no attempt has ever been made to run the boundary line in conformity to the treaty of 1783, and nothwithstanding the universal belief among those best acquainted with the subject, in the existence of the "highlands separating the waters which flow into the the St. Lawrence from those flowing into the Atlantic," set forth in the treaty as constituting the boundary, our Government at Washington has nevertheless suffered it to be assumed by the British negotiators, *that no such highlands exist*, and that it is *impossible* to run the line in conformity to the calls of the treaty! Nay, they have even gone farther. Acknowledging in terms, the impossibility of running the line as set forth in the Treaty, they have themselves made propositions for a conventional line; and have even applied to the State of Maine for her consent to such an arrangement?

In this State of the case it is by no means wonderful that the State of Maine became alarmed for the integrity of her territory. Seeing the administration of the General Government thus betraying their rights, and ready to bargain away a portion of her empire, it was indeed full time that she should take the matter into her own hands and insist upon some attempt at least, to execute the treaty according to its terms and original intentions. Luckily for that State, the political revolution which had occurred there, had transferred the management of her political concerns into the hands of the Whigs; otherwise, according to that truckling system which the Maine Tories have ever pursued in this business, before this time, she would have been curtailed of one third her fair proportions, and would have suffered a disgrace still greater than her loss.

Governor Kent and the Whigs in the Maine Legislature, took hold of this business in the true spirit, resolved no longer to suffer the rights of the State to be abandoned and betrayed, through the incapacity or the treachery of the general Government; and determined to recover that ground which the federal executive had so incautiously and faithlessly abandoned. They determined that before any further attempts should be taken in this business, an attempt should be made to survey the boundary as it is described and set forth in the treaty of 1783; and accordingly at the last session of the Legislature they passed the following resolutions.

Resolved, That it is not expedient to give the assent of this State to the Federal Government to treat with that of Great Britain for a Conventional Line for our North Eastern Boundary, but that this State will insist on the line established by the Treaty of seventeen hundred and eighty three.

Resolved, That as this State has never heretofore given her consent to the appointment of an Umpire under the Treaty of Ghent in 1814, but has protested against the same; and as she believes it to be a grave question whether the provision in the Treaty for this purpose has not done its office, and is therefore no longer in force, she is now prepared to give her assent to the appointment of a new Arbiter.

Resolved, That our Senators and Representatives in Congress be requested to urge the passage of the Bill for the Survey of the North Eastern Boundary of the United States, &c. now pending in Congress; and that if said Bill shall not become a law during the present session of Congress, and if the Government of the United States, either alone or in conjunction with Great Britain or the State of Maine, shall not, on or before the first day of September next, establish and appoint a commission for a survey of said boundary line, it shall then be the imperative duty of the Governor, without further delay, to appoint forthwith suitable Commissioners and Surveyors for ascertaining, running, and locating the North Eastern Boundary Line of this State, and to cause the same to be carried into operation.

Resolved, That the Governor be requested to transmit to the President of the United States one copy of his Message to the Legislature on the subject of the Northeastern Boundary, and these Resolutions, and one copy of the same to each of the Heads of Departments at Washington, one copy to each of our Senators and Representatives in Congress, and one copy to the Governor of Massachusetts.

During the late session of Congress, a bill was accordingly brought into both branches of that body, providing for the survey of the boundary according to the terms of the treaty.

In the Senate, the bill gave rise to considerable debate. Mr Webster explained in the clearest and distinctest manner the claims of the State of Maine; and it was agreed on all hands, that there was the highest propriety and expediency, before going any further with the matter of a conventional boundary, in favor of ascertaining whether in fact, it was not perfectly easy to run the boundary according to the treaty.

It appears however, that subsequently to the passage of the above resolutions by the State of Maine, the Federal Executive, perceiving the pass to which things were coming, had applied to the British Ambassador to enter into a convention for appointing commissioners for a joint exploration and survey of the Treaty boundary. The British Ambassador had declined to enter into such a convention for want of power, but had promised to apply immediately to his own government for the requisite authority. Until this negotiation could be terminated, it was thought best not to pass a law for an *ex parte* survey; and accordingly the bill was laid upon the table, accompanied by a report from the Committee on Foreign Relations, setting forth the validity of the claims of Maine, and by the following resolutions, which were adopted:

Resolved, that after a careful examination and deliberate consideration of the whole controversy between the United States and Great Britain relative to the North Eastern Boundray of the former, the Senate does not entertain a doubt of the entire practicability of running and marking that boundary in strict conformity with the stipulations of the definitive treaty of peace of seventeen hundred and eightythree; and entertains a perfect conviction of the justice and validity of the title of the United States to the full extent of all the territory in dispute between the two powers.

Resolved, further, That, considering that more than half a century has elapsed since the conclusion of that treaty; considering the extraordinary delay which has hitherto marked the negotiations and proceedings of the Governments of the two countries, in their endeavors amicably to settle the controversy; and considering the danger of mutual irritation and collisions upon the border of kindred and friendly nations from further procrastination, the Senate cannot forbear to express an earnest [illegible] that the [illegible] negotiation should be brought to a close, and the final decision of [illegible] as [illegible] practicable.

Resolved, [illegible]

for the United States to proceed, upon their separate authority, to survey and mark the North Eastern Boundary, until all reasons [illegible] effecting that object by the consent and concurrence of both parties shall have been exhausted, the "bill to provide for surveying the North Eastern Boundary Line of the United States according to the treaty of seventeen hundred and eighty-three" ought not to pass, and it is therefore ordered that it be laid upon the the table.

A similar bill for the survey of the boundary, was also introduced into the House, where on the recommendation of the Committee on Foreign Affairs, it was laid upon the table, and resolutions were adopted in the very words of the two first of those adopted in the Senate.

Thus this matter now stands. If the British government consent to a joint commission of survey, so far so good; but if it declines or neglects to come into that arrangement, nothing remains but for Governor Kent to carry into effect the resolution of the Maine Legislature, and prosecute the survey under his own authority.

The following just observations upon this subject are from the *Baltimore American*.

We are not among those, if any such there be, who in reality believe that Maine has assumed more than is proper in reference to the Boundary question. Being the citizens of a free and independent State which had its existence prior to the Confederative compact under which the General Government was created, we can well appreciate the patriotic feeling which would rise in opposition to any thing like an abstraction of her territory. Although the *State* of Maine is not one of the *original thirteen*, the extent of its soil as a portion of Massachusetts has been as well defined and marked out as that of any member of the Confederacy, and inasmuch as in becoming what she is, she ceded to the National Government no more than was granted by other parties to the Union, she stands precisely on the same footing. In our opinion the cause of Maine is the cause of every State, and the principles which apply to them are applicable to her, and it becomes their duty to espouse her cause with the same heartiness as if the injury to be inflicted were directed against themselves. It is to the Treaty of 1783 that we are to look for the limits assigned to Maine on the side connecting her with the British Provinces, and until the line therein specified shall be found utterly impracticable, no sovereignty on earth save her people has a right to mark out a different one. However it may suit British politicians, after experience has taught them the value of the territory in question, to talk of conventional lines and endeavor to procure from the Government at Washington such concessions as might be deemed a waiver of any pre-existing right, yet as the question is one involving state sovereignty, those with whom they would treat are just as powerless in the premises as the Ministers of Great Britain themselves. Nay, in fact, they are more so, as the existing government of England might make cessions of the territory but the General Government of the United States cannot. We have always apprehended difficulty in the quarter of which we speak, but it is a difficulty which cannot be got rid of with honor, and must therefore be met manfully. In the views presented by Gov. Kent, of Maine, on this subject, he has we believe given those of the nation, and should England persist in her unreasonable proposition, she will find that she has touched a chord that will vibrate in the heart of every true American from Maine to Louisiana, and from the Atlantic to the Rocky Mountains.

The Army. The promotions and appointments in the army under the late law have all been made. For once the administration have recognised the long established usage of promotion. LICENSE LAWS

BY REV. JOHN PIERPONT.

"We license thee for so much gold,"
Said they who filled St. Peter's chair,
"To put away the wife who's old,
And take one that's young and fair;
For *public good requires* a dome
To swell like heaven's, for us at Rome."

"For so much gold we license thee:
(So say our laws,) a draught to sell
That bows the strong, enslaves the free,
And opens wide the gate of hell;
For *public good requires* that some,
Since many die, should live by Rum."

Ye civil Fathers! while the foes
Of this Destroyer seize their swords,
And heaven's own hail is in the blows
They're dealing, will ye cut the cords
That round the falling fiend they draw,
And o'er him hold your shield of law?

And will ye give to man a bill,
Divorcing him, from heaven's high sway?
And, while God says, "thou shalt not kill,"
Say ye, "for gold ye may—ye may?"
Compare the body with the soul!
Compare the bullet with the bowl!

In which is felt the fiercer blast
Of the destroying angel's breath?
Which binds its victim the more fast?
Which kills him with the deadlier death?
While ye the felon fox restrain,
And yet take off the tiger's chain?

The living to the rotting dead
The God-contemning Tuscan tied,
Till by the way, or on his bed,
The poor corpse-carried dropped and died;
Lashed hand to hand, and face to face,
In fatal and in loathed embrace.

Less cutting, think ye, is the thong
That to a *breathing* corpse, for life!
Lashes, in torture loathed and long,
The drunkard's child—the drunkard's wife,
To clasp *that* clay—to breath *that* breath,
And no escape? O, that is death!

Are ye not fathers? When your sons
Look to you for their daily bread,
Dare ye, in mockery, load with stones
The table that for them ye spread?
How can ye hope your sons will live,
If ye, for fish, a serpent give?

O, holy God, let light divine
Break forth more broadly from above
Till we conform our laws to thine—
The perfect law of truth and love;
For truth and love alone can save
Thy children from [illegible] grave.

DR. BRANDRETH'S GENUINE PILLS

Doctor Sangrado's system still
Lives in the world, to kill, to kill!

THIS system does indeed live still, and is practised by the very men who laugh at Doctor Sangrado as a visionary fool. The immaculate Faculty!! Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid, stagnant and corrupt humors IN THE BODY by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, then take

Brandreth's Pills, concocted forth
From the pure products of the earth;
They own no after sad alloy,
They often save, but ne'er destroy!

BLEEDING ALWAYS IMPROPER,

"For the life of the flesh is in the blood," Leviticus, chapter xvii, v. 11. When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated, bleeding will no longer be thought of as a remedy for diseases, for in violent inflammations, eight or ten of them will take, in the course of two or three hours, more of the impure humors from the body, by the stomach and bowels, than bleeding to the extent of forty ounces could possibly have done, and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of inflammation; whereas bleeding removes the essential parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what agility and strength is felt after a dose of this medicine; the body is indeed lightened of a load. Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which 84 years have proved never to do injury, but always good. Is the pulse too high? A dose of these Pills will bring it down. Is it too low? the same means will increase it to a proper standard. Is it tremulous, showing nervous excitement? the Pills, by soothing the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as often as four times in a year; and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and having a vein opened, they have swallowed six or eight Pills, which soon removed the vitiated humors that were impeding the blood in its circulation. Those sensible people simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure by the use of Brandreth's Pills alone, are submitted with respect, to the unprejudiced portion of the Boston public.

ASTHMA CURED. The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich, Ct., deserves, by all persons, a careful perusal. The most prejudiced must own that evidence is on the side of these Pills, which, by the cures they are daily making show there is no necessity for any other medicine.

This is to certify that Thomas S. Brown of Greenwich, Ct., was taken with a cold, numb feeling, on the 13th of June last. He began to cough and raise phlegm and in the course of twenty-four hours about two quarts of thick white jelly was expectorated. Three physicians in Stamford, Greenwich, and Sawpits, pronounced it a nervous humid spasmodic Asthma, and after prescribing for some time to no effect, the three consulted together, and finally declared that they could do him no good; it would and must result in consumption, and death would ensue, and that in a very short time. The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strangulation. He was reduced to a mere skeleton, and finally gave himself up to death. After being in this miserable state nearly two months, he saw an advertisement of Dr. Brandreth's Vegetable Universal Pills, and immediately sent by Capt. J. Waring of Greenwich, for a box, and found relief in the course of a few days, which encouraged him to persevere, and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge, in consequence of taking the above Pills, which we have also used in our families, and have found them invaluable.

Signed. Greenwich, 22d Feb. 1836,

James R. Meas, Daniel S. Betts, John H. Reynold, A. Palmer, Rev. R. Palmer, J. R. Palmer, H. Brewsley, S. Jessup, James Moore, Hannah Hitchcock, J. Mean, Thos Bertram, Isaac Olmstead, P. V. T. Jessup, Stephen Waring, John Limbry.

Certificate of John Goulden, who has known the above pills forty years.

I hereby certify, that I have known Brandreth's Vegetable Universal Pill for upwards of forty years they were used by my family connections, in the county of Dorset, England, since the year 1796, many of whom they cured of old standing complaints. JOSEPH GOULDEN.

Bridgeport, Feb. 18, 1836.

Certificate of cure of CHOLICS, FITS, &c. &c. From a BOSTONIAN whose address is at the foot.

[TRUE COPY.]

To Dr. Benj. Brandreth:

My dear Sir,—I write a few lines to inform you that I have been making use of your Vegetable Universal Pills. I have been afflicted with a complaint supposed to be caused by PAINT. I was subject to a great coldness through my whole system, attended with frequent pain and severe cholics; for the year, I have also been subject to fits, which would seize me in the night, and when I have come to myself, I have been as weak as a child. I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence, No. 17 Sudbury street, to any one who wishes to inquire.

I feel the medicine has been of very great service and that the diseases under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you,

Believe me to remain.
Very respectfully,
JOHN LUMMUS,
Boston 17 Sudbury street.

ROGERS & HOLYOKE.

Dr. KINGLEY'S PILLS.

THE most safe, effectual and economical remedy for diseases of the Human Constitution, that has ever been discovered.

These Pills are composed entirely of materials extracted from Medical Plants, and are warranted not to contain one particle of mercury, or any mineral substance. Dr. Kingley, the inventor of this valuable medicine, from his knowledge of the human system derived from a long and extensive practice, has arrived to the conclusion, that the great and primary cause of most diseases is a derangement in the functions of the liver; or in other words an increased or diminished secretion of the Bile.

So well is this understood, that it is common for persons to say when they feel unwell that they are bilious, meaning that they have too much bile in the stomach. On the other hand, when the flow of bile is diminished, the process of digestion is imperfectly performed, the patient becomes weak and emaciated, because nourishment contained in the food taken into the stomach is not properly extracted, and the food is ejected in a crude state. Dr. Kingley is confident that the famous Hygean Theory, so called, that "impurity of the blood is the cause of all diseases," is a great absurdity. Every one who reflects upon the subject a moment, will perceive that impurity of the blood is a secondary, not a primary complaint—the effect, and not the cause of the disease. When the functions of the liver are deranged, and the flow of bile increased, it is often taken up by the absorbent vessels and carried into the circulation, and becomes mingled with the blood as in Jaundice, when the patient shows it in his countenance. Now this impurity of the blood is caused by an increased flow of the bile, and to remedy it you must correct the secretion of the liver and restore it to a healthy state.

Dr. Kingley has spent much time in experimenting with different vegetable medicines, for diseases of the liver, and now offers his Universal Family Pills as the best, most convenient and cheapest medicine that can be prepared for general use; and in offering them to the public, he is actuated more by benevolent than pecuniary motives, as the price of the medicine will show.

Dr. Kingley flatters himself that his long experimenting with vegetable medicines has enabled him to discover the true and only substitute answering all the purpose of mercurials, without any of their attendant evils. One great quality of his family Pills is, that they have the alterative principle combined with their cathartic or operative quality, so that they not only cleanse the stomach and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs, purify the blood, invigorate the circulation, and give tone and energy to the nervous system.

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the first dose. They can be taken with safety by persons of any age, and the feeble, the infirm, the nervous, the delicate, are strengthened by their operation, because they clear the system of bad humors, quiet nervous irritabilities and restlessness, from whatever source, and invariably produce sound sleep.

The Family Pills are an invariable remedy for jaundice, sick and nervous headache, dyspepsia, costiveness, sickness of the stomach, heartburn, all bilious complaints, fevers of all kinds, and if taken at the commencement will invariably check their progress, and save the patient from a protracted and dangerous sickness. They are invaluable in nervous and hypochondriacal affections, loss of appetite, and all complaints to which females alone are subject. They operate as a mild and speedy purge, and are a safe and certain remedy for worms in children.

I might publish a small volume of certificates but consider it unnecessary, as the medicine will recommend itself to all who will make trial of it.

JOHN KINGLEY,

These Pills are put up in neat boxes of two sizes; the small size contains 25 Pills and the retail price is 25 cents, the large size contains 60 Pills, the price is 50 cents.

☞ PALMER & BLAKE have been appointed agents for the above pills for the New England States. Druggists and others can be supplied wholesale and retail, upon application to them at No. 41 Hanover street, Boston, or to J. E. LADD, Augusta, agent for the State of Maine. A VALUABLE REAL ESTATE FOR SALE.

THE whole of the PHILIPSBURGH ESTATE, situated in Centre, Clearfield, and Cambria Counties, in the State of Pennsylvania, with all the improvements thereon, is now offered for sale.

THIS Estate comprises about SEVENTY THOUSAND ACRES of Land VERY HEAVILY TIMBERED, and is the HEART of the BITUMINOUS COAL FIELD, upon which are already established a FORGE for the manufacture of bar iron, with all the necessary appendages. An efficient and well constructed SAW MILL, a SCREW FACTORY, with improved machinery, at which wood screws of all sizes are manufactured. A ROLLING MILL, for the rolling of blooms into round rods for wire drawing, with AIR FURNACE for heating the blooms. An ANNEALING HOUSE a BUILDING with a FURNACE and MACHINE for heading rail road screws. A PATTERN HOUSE, containing numerous patterns for casting machinery. A CUPOLA FURNACE, where the machinery of the screw factory is cast, and an extensive country business carried on. A BUILDING containing a TILT-HAMMER and SHEARS for cutting iron. A MANAGER'S HOUSE & OFFICE, and BOARDING HOUSE for workmen. A valuable GRIST MILL, worked by steam power.

Also, the PROPRIETOR'S HOUSE, beautifully situated, seventy-six feet in front, with spacious piazzas front and rear, and possessing every convenience calculated for a gentleman's residence. A LARGE AND SUBSTANTIALLY BUILT BRICK HOTEL, in the town, with all the requisite out-buildings. A WELL BUILT STONE HOUSE, forty-two by twenty four feet, with the land adjoining. A LARGE STORE HOUSE calculated for an extensive country business. FIVE COTTAGES in the village with gardens attached. A FARM HOUSE with a spacious and well constructed Barn, Granary and out buildings, and one hundred and fifty acres of highly cultivated meadow land adjoining. The whole estate is abundantly supplied with springs of excellent water, and streams, with water power sufficient for saw mills, grist mills, forges, furnaces, &c. It is situated on the Moshannon and Clearfield Creeks, about ten miles from the river Susquehanna on the north, to which the Moshannon and Clearfield Creeks afford navigable outlets in time of freshets, and about twenty five miles from the PENNSYLVANIA CANAL on the southeast, to which a highly favorable route is presented for the construction of a Rail Road to the JUNIATA DIVISION of the Pennsylvania Canal, through a portion of Huntington County, abounding in IRON ORE, of the finest quality, where a number of forges and furnaces have been long established, but which are laboring under difficulties from the WANT OF THIS COAL. A charter has been obtained for the construction of the rail road, THE LOCATION OF WHICH IS COMPLETED, and the estimates furnished, preparatory to a commencement of the work. The distance from the COAL MINES to the CANAL is only twenty eight miles.

The MAGNIFICENT TIMBER upon this estate, consists of all the varieties usually found in Pennsylvania, but the WHITE PINE, which is MORE PARTICULARLY ABUNDANT, is of the largest description, fit for MASTS, SPARS, PANNEL BOARDS, &c. and of an EXCELLENT QUALITY. The BITUMINOUS COAL is found in every hill, in veins of various thickness, viz: four feet two inches, six feet and nine feet, and there are two, three or four veins in a hill according to its elevation. The quality varies, in different situations FROM THE HIGHLY BITUMINOUS SOFT COAL, CLOSELY RESEMBLING the NEWCASTLE COAL OF ENGLAND, to a much harder and heavier Coal containing less bitumen. LIME STONE, FIRE CLAY and IRON STONE have been discovered accompanying some of the measures, and will doubtless be found to be general, upon a proper examination. A HIGHLY FAVORABLE CHARTER has been granted by the Legislature of Pennsylvania, containing MINING, MANUFACTURING and TRANSPORTING PRIVILEGES for a period of SIXTY YEARS, authorizing a company to hold this estate in a corporate capacity, and to convey to market its vast resources.

Family circumstances however, having occurred, to prevent the proprietor from individually accomplishing this important enterprise, he would be willing to sell, ON LIBERAL TERMS, the whole property to a respectable company, who would carry out the provisions of the charter, to whom, of course he would transfer all its privileges, or he would sell the estate in tracts, to suit the convenience of purchasers.

The title to this Estate is INDISPUTABLE, and the SALUBRITY of the CLIMATE is proverbial. Taking into consideration, therefore, the immense quantity of the HEAVY and VALUABLE TIMBER upon this estate, the presence of IRON ORE, the INEXHAUSTIBLE supplies of BITUMINOUS COAL, so essential in the GENERATION OF STEAM, the PRODUCTION of GAS, and for domestic purposes and the arts in general, its ADVANTAGEOUS POSITION, with regard to its communication with the SEA BOARD its IMMEDIATE PROXIMITY to a region ABOUNDING in the RICHEST IRON ORE, in which the WANT OF FUEL is already productive of serious inconvenience; considering also, the highly favorable location of the rail road, intersecting the Pennsylvania canal, and thus affording the choice of both the Eastern and Western markets, and taking into view the many HOUSES, BUILDINGS, MANUFACTURING ESTABLISHMENTS, CLEARED and CULTIVATED LAND, thus enabling the enterprising company to commence their operations, without incurring the HEAVY EXPENDITURE of money, and the DELAY incident to new establishments, it is confidently believed that a rare opportunity is now presented for the SAFE and PROFITABLE investment of capital.

For further particulars, application may be made either personally or by letter, POST PAID, to Samuel Corp, Esq. New York John C. Montgomery, Esq. Philadelphia John Norris, Esq. Brown's Mills, Mifflin county, Penn. or to
